9. Background and Rationale of the Scheme

- 9.1. The Company and the Transferee Company 2/ Transferor Company 3 are engaged in similar business. Considering the existing entertainment and advertising market dynamics in India and global markets and growth opportunities thereof, the Company and Transferee Company 2/ Transferor Company 3 believe that the proposed consolidation of the QCTPL Business (more particularly defined in the Scheme) with Transferee Company 2/ Transferor Company 3 will lead to robust growth opportunities in India and globally.
- 9.2. The Transferee Company 2/ Transferor Company 3 has developed an efficient satellite delivery mechanism for delivery of content into theatres using MPEG4 technology. The Company, on the other hand, uses MPEG2 technology and has also developed its own DCI compliant servers. The resultant entity will thus have all the complementary technologies at its disposal and will be in a position to offer its clients a comprehensive bouquet of services. Additionally, based on evaluation of technologies, the resultant entity will be able to use best features of these technologies for growth of its business in a competitive manner.
- 9.3. Neither the Company nor Transferee Company 2/ Transferor Company 3 is currently able to provide a comprehensive advertising solution to its clients across the length and breadth of the country.
- 9.4. While the Company has a very strong presence in southern regions of India, Transferee Company 2/ Transferor Company 3 has a higher number of its screens in northern regions with reasonable presence in southern regions of India. Thus, the proposed restructuring will ensure an all India presence for the combined entity thereby facilitating provision of a wholesome offering across the country to its advertising clients. This will help in substantial growth of the advertising business for the resultant entity.
- 9.5. Further, this Scheme would bring about synergy of operations and benefit of scale since duplication of administrative efforts and legal and regulatory compliances will be unified.
- 9.6. This Scheme will facilitate exit of private equity investors from the QCTPL Business who have stayed invested in the Company for a long time. The private equity investors will continue to remain invested in the Studio DPS Business (more particularly defined in the Scheme) of the Company.
- 9.7. This Scheme will provide an opportunity to employees and shareholders of the Company to become part of a listed entity.
- 9.8. The resultant entity will be able to provide better and more efficient and comprehensive services to all the stakeholders of the industry such as exhibitors, distributors, advertisers etc.
- 9.9. As part of this Scheme, all businesses of the Company which are synergic with Transferee Company 2/ Transferor Company 3 will be demerged into the Resulting Company/Transferee Company 1/Transferor Company 2, a company owned by the promoter of the Company and his relative, leaving behind businesses in the Company that are not synergic or have limited growth potential. Further, it is also proposed to merge Transferor Company 1, a company controlled by the promoters of the Company and which holds various

intellectual properties, into Resulting Company/Transferee Company 1/Transferor Company 2, thereby consolidating and combining the businesses of the Company and Transferor Company 1 in Resulting Company/Transferee Company 1/Transferor Company 2. Resulting Company/Transferee Company 1/Transferor Company 2 will then be merged with Transferee Company 2/ Transferor Company 3.

- 9.10. The Company has developed certain new software, technologies and processes ("QCTPL Products") which are currently in the process of commercialization. The Transferee Company 2, in addition to its screen network in India, also has a network of screens overseas. QCTPL Products have global application and the combined network post amalgamation will allow faster monetization of QCTPL Products not only in India but overseas as well. Post-merger of Resulting Company/Transferee Company 1/Transferor Company 2 into Transferee Company 2/ Transferor Company 3, the business relating to the QCTPL Products i.e. IP Business (more particularly defined in the Scheme) will be hived off into Transferee Company 3, a wholly subsidiary of Transferee Company 2/ Transferor Company 3, thereby creating a pure technology play. The IP Business derives value significantly from the technical expertise and talent of the promoters of the Company. Further, synergies will be derived from such talent acquisitions pursuant to the Scheme. Accordingly, the continual support of the promoters of the Company would be required upon implementation of the Scheme for the technology aspects. This will also facilitate hiring of relevant technical talent which is a challenge currently for both the Company and Transferee Company 2/ Transferor Company 3.
10. **Relationship subsisting amongst the Company, Resulting Company / Transferee Company 1 / Transferor Company 2, Transferor Company 1, Transferee Company 2/Transferor Company 3 and Transferee Company 3**
- 10.1. The Company, Resulting Company / Transferee Company 1 / Transferor Company 2 and Transferor Company 1 have common directors and also have common promoters.
- 10.2. The entire issued, subscribed and paid up share capital of the Resulting Company / Transferee Company 1 / Transferor Company 2 is presently held by the promoter of the Company and his relative.
- 10.3. The promoters of the Company presently hold 66.66% of the issued, subscribed and paid up share capital of Transferor Company 1.
- 10.4. Transferee Company 3 is a wholly-owned subsidiary of the Company.
- 10.5. The Transferee Company 2/ Transferor Company 3 and Transferee Company 3 are not related to the Company, Resulting Company / Transferee Company 1 / Transferor Company 2 and Transferor Company 1.

4. UFO is a public limited company incorporated on June 14, 2004 under the Companies Act, 1956 and its registered office is situated at Valuable Techno Park, Plot No 53/1, Road No 7, Marol MIDC, Andheri East, Mumbai – 400 093. PJSA will be engaged in the business of providing technology in film, video and audio, including digital cinema distribution, editing, production and sound.

(B) RATIONALE AND PURPOSE OF THE SCHEME

1. QCTPL and UFO are engaged in similar business. Considering the existing entertainment and advertising market dynamics in India and global markets and growth opportunities thereof, QCTPL and UFO believe that the proposed consolidation of the QCTPL Business (*more particularly defined hereinafter*) with UFO will lead to robust growth opportunities in India and globally.
2. UFO has developed an efficient satellite delivery mechanism for delivery of content into theatres using MPEG4 technology. QCTPL, on the other hand, uses MPEG2 technology and has also developed its own DCI compliant servers. The resultant entity will thus have all the complementary technologies

at its disposal and will be in a position to offer its clients a comprehensive bouquet of services. Additionally, based on evaluation of technologies, the resultant entity will be able to use best features of these technologies for growth of its business in a competitive manner.

3. Neither QCTPL nor UFO is currently able to provide a comprehensive advertising solution to its clients across the length and breadth of the country.
4. While QCTPL has a very strong presence in southern regions of India, UFO has a higher number of its screens in northern regions with reasonable presence in southern regions of India. Thus, the proposed restructuring will ensure an all India presence for the combined entity thereby facilitating provision of a wholesome offering across the country to its advertising clients. This will help in substantial growth of the advertising business for the resultant entity.
5. Further, this Scheme would bring about synergy of operations and benefit of scale since duplication of administrative efforts and legal and regulatory compliances will be unified.
6. This Scheme will facilitate exit of private equity investors from the QCTPL Business who have stayed invested in QCTPL for a long time. The private equity investors will continue to remain invested in the Studio DPS Business (*more particularly defined hereinafter*) of QCTPL.
7. This Scheme will provide an opportunity to employees and shareholders of QCTPL to become part of a listed entity.
8. The resultant entity will be able to provide better and more efficient and comprehensive services to all the stakeholders of the industry such as exhibitors, distributors, advertisers etc.
9. As part of this Scheme, all businesses of QCTPL which are synergic with UFO will be demerged into QDCPL, a company owned by QCTPL Promoter 1 and his relative, leaving behind businesses in QCTPL that are not synergic or have limited growth potential. Further, it is also proposed to merge MPL, a

company controlled by QCTPL Promoters and which holds various intellectual properties, into QDCPL, thereby consolidating and combining the businesses of QCTPL and MPL in QDCPL. QDCPL will then be merged with UFO.

10. QCTPL has developed certain new software, technologies and processes (“**QCTPL Products**”) which are currently in the process of commercialization. UFO, in addition to its screen network in India, also has a network of screens overseas. QCTPL Products have global application and the combined network post amalgamation will allow faster monetization of QCTPL Products not only in India but overseas as well. Post merger of QDCPL into UFO, the business relating to the QCTPL Products i.e. IP Business (*more particularly defined hereinafter*) will be hived off into PJSA, a wholly subsidiary of UFO, thereby creating a pure technology play. The IP Business derives value significantly from the technical expertise and talent of the QCTPL Promoters. Further, synergies will be derived from such talent acquisitions pursuant to the Scheme. Accordingly, the continual support of the QCTPL Promoters would be required upon implementation of the Scheme for the technology aspects. This will also facilitate hiring of relevant technical talent which is a challenge currently for both QCTPL and UFO.

Thus, with the aforesaid objectives, it is proposed to demerge the QCTPL Business of QCTPL into QDCPL, merge MPL into QDCPL, undertake the purchase of the QDCPL Sale Shares (*more particularly defined hereinafter*) of the Sellers (*more particularly defined hereinafter*) who no longer wish to participate in the QCTPL Business, amalgamate QDCPL with UFO and thereafter slump sale the IP Business from UFO into PJSA pursuant to this composite Scheme. For the avoidance of any doubt, it is stated that each of the aforesaid transactions form an integral and indivisible part of this composite Scheme and the said transactions shall be deemed to occur in the sequence set out in Para (D) herein below and none of the said transactions shall be considered to be consummated, unless each of the other transactions are also consummated and this Scheme is approved by the SEBI, the Stock Exchanges and the NCLTs, as the case may be.

This Scheme also provides for various other matters consequential or otherwise integrally connected therewith.

Dear Sir,

Sub: Valuation of Equity Shares of M/s. Qube Digital Cinema Pvt. Ltd - reg

We refer to our discussions regarding the valuation of the equity shares of **M/s. Qube Digital Cinema Pvt. Ltd** (the "Company") taking into consideration the proposed demerger of the Undertakings of Qube Cinema Technologies Pvt. Ltd. ("QCT") into the Company. As requested by you, we present herewith our report of valuation of the equity shares of the Company (the "Valuation").

1. Purpose of Valuation

1.1 We understand as an integral part of the above proposed transaction, a substantial part of the undertaking of QCT (excluding business arising from the Studio DPS Contracts i.e., business carried out pursuant to contracts entered into by QCT with 6 Hollywood Studios in connection with playback of their digital titles) is proposed to be demerged into the Company and it is proposed that the shareholders of QCT shall, in consideration of such demerger, be allotted shares in the Company in proportion to their holdings in QCT. In relation to above proposed Demerger of the Undertakings, you have requested for our report on the valuation of the equity shares of the Company after adjusting for the business not forming part of the above said proposed demerger. The company have further requested to consider the reference date for valuation as August 31, 2017 and accordingly the financial projections for the period September 2017 to March 2022 have been considered for the purpose of valuation.

1.2 We understand that the QCT has issued reserved certain options under its Employee Stock Option Plan, which are not yet granted. The current Valuation is based on fully diluted equity share capital as at the date of this report, assuming full conversion of granted and/ or vested options. In this respect, we have been advised that the options pending grant shall be extinguished prior to the proposed demerger scheme. For the purposes of this report, we have assumed that such options stand cancelled and are not available for conversion into equity shares and have accordingly computed the fully diluted equity shares in the Company.

2. Company and Qube Cinema Technologies Private Limited - Brief Background.

QCT was incorporated in 1986 and has been providing technology solutions and services to the media and entertainment industry with a dominant focus on the digital cinema domain. QCT has a 100% subsidiary in California, by the name Qube Cinema Inc. and has a 39.23% shareholding in Justickets Pvt. Ltd. (JTPL) which is a subsidiary by virtue of QCT having contractual management control rights therein.

The Company has been incorporated on October 11, 2017 and currently has a paid-up capital of Rs.100,000/-

3. Financial Projections

3.1 We were furnished with the detailed business plan and projected financials covering the businesses as presently carried out by QCT and as proposed to be carried out for the financial years 2017-18 to 2021-22 along with the provisional financials for the period of April 01, 2017 to August 31, 2017. Further we have been provided the details of the expected earnings included in the above provisional financials and net receivables/ assets as on August 31, 2017 of the business not considered for the above proposed demerger. These projections cover the entire businesses as currently carried out but excluding the impact of the businesses carried out by JTPL, in respect of which the investment made by QCT in the share capital of JTPL, which will flow to the Company consequent to the demerger, has been considered at its acquisition cost, as reflected in the books of QCT.

3.2 As informed to us, the projections presented for our review have been prepared by the management of the Company based on inputs from the management of QCT and represent the business plan forecast by the management of the Company and the same is approved by the Board of the Company.

3.3. The Projected and Provisional Financials with detailed workings and assumptions have been provided by the management of the Company.

4. Methodologies used for Valuation

You have specifically represented to us that the businesses covered under the projected financials, as currently operated by QCT and as proposed to be operated by the Company have significant growth potential, including those arising out of certain new IP/ technology based businesses which are currently in the process of being launched and requested us to value the shares of the Company accordingly. Taking this into account, we have, based on the financial projections provided to us, used the discounted free cash flow method for valuation assuming the aforementioned demerger transaction to be effective as at Aug 31, 2017. Further since the projections include the consolidated business of QCT as carried out presently, we have been asked to adjust the estimated profits and net assets receivables of the business, which is not part of the proposed demerger to arrive the above said valuation.

5. Value as per Discounted Free Cash Flow Method

- 5.1 Our Valuation is based on the detailed business plan and financial projections referred to in 3.1 above, for the period 2018 to 2022 (forecast period considered by us) and on an 'as if proposed demerger is effective' basis.
- 5.2 We have considered the estimated free cash flows of the Company and have applied discounting rate obtained from sources which were considered reliable at the time of valuation to the aforesaid free cash flows to arrive at the business value of the Company. The various factors considered to arrive at the discounting rate are long term risk free rate of return, enhanced risk & lack of marketability, cost of debt of the Company etc. Further cost of debt is reckoned at the weighted average interest rate at which QCT is currently borrowing, after adjusting the currency risk for foreign currency debts and adjusted for tax impact. This would result in an applicable discount rate of 13.16%.
- 5.3 After discussions with the management of the Company, we have considered 28% on estimated turnover of the final year i.e.2021-22 to determine Profit before depreciation, interest and tax and considered the cash flows of the final year i.e.2021-22 to continue into perpetuity with a growth rate of 4% per annum with certain assumptions as stated in valuation workings.
- 5.4 Since the Value of the Undertakings proposed to be demerged is to the equity shareholders of the Company, all the debts taken and long term advances / deposits given are adjusted to arrive the valuation.
- 5.5 Hence, since the Company is incorporated with the limited liability and there is no amount outstanding against partly paid shares, we believe the present value of Undertaking proposed to be demerged would be **Rs.625,38,68,452/-** as per the Valuation arrived. Accordingly based on the fully diluted equity shares of 1,98,58,114 the value per equity share works out to be Rs. 314.93 or ~ Rs.315.

6. Limitations/ Disclaimers

- 6.1 In the course of our Valuation, we have relied on the financial data, projections and information made available to us by the Company. Our conclusions are dependent on such information being reasonable and complete in all material respects. Although we have reviewed this information, the scope of our work will not enable us to accept responsibility for the reasonableness and completeness of this information. We have not conducted an independent audit, due diligence review or validation of such information.

Therefore, we do not express any opinion on the accuracy of the same. Even if the events anticipated under the hypothetical assumptions occur, actual results are still likely to be different from the projection since other anticipated events frequently may not occur as expected and the variation may be material.

- 6.2 Our report does not constitute a recommendation as to whether or not any party should carry out a transaction vis-à-vis the Company. Any investment decision relating to the Company should only be made by the relevant parties based on their own assessment of the merits or demerits of any such investment.
- 6.3 We shall not be liable to the Company for any loss or liabilities which may arise based upon the information used in this report. Further, the Company agrees that we shall not

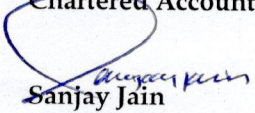

be liable for any consequential, incidental or punitive loss or expense even if we have been advised of their possible existence. This provision shall survive the termination of the engagement for any reason.

6.4 This report is for the sole purpose stated in Para 1 above.

3.3. The Projected and Provisional Financials with detailed workings and assumptions have been provided by the management of the Company.

4. Methodologies used for Valuation

You have specifically represented to us that the businesses covered under the projected financials are currently in the pre-commercialisation stage and therefore, do not have any historical track record, trends or metrics or any ready comparables and that the business concept has significant potential going forward and requested us to value the shares of the Company accordingly. Taking this into account, we have, based on the financial projections provided to us, used the discounted free cash flow method for valuation for the purpose of above merger of the Company.

5. Value as per Discounted Free Cash Flow Method

5.1 Our Valuation is based on the detailed business plan and financial projections of the Company provided by the management for the financial years 2018 to 2022.

5.2 We have considered the estimated free cash flows of the Company and have applied discounting rate obtained from sources which were considered reliable at the time of valuation to the aforesaid free cash flows to arrive at the business value of the Company. The various factors considered to arrive the discounting rate are long term risk free rate of return, enhanced risk & lack of marketability, risk premium for start up company etc. This would result in an applicable discount rate of 18%.

5.3 After discussions with the management of the Company, we have considered the cash flows of the final year i.e. 2021-22 to continue into perpetuity with a conservative estimates growth rate of 2.5% per annum as the company is in its start up stage with certain assumptions as stated in valuation workings.

5.4 Hence, since the Company is incorporated with the limited liability and there is no amount outstanding against partly paid shares, we believe the present value of Company proposed to be merged would be Rs 24,57,07,318/- as per the Valuation arrived. Accordingly based on the current issued and paid up equity shares of 10,212 the value per equity share works out to be Rs. 24060.65 or ~ Rs.24060.

6. Limitations/ Disclaimers

6.1 In the course of our Valuation, we have relied on the financial data, projections and information made available to us by the Company. Our conclusions are dependent on such information being reasonable and complete in all material respects. Although we have reviewed this information, the scope of our work will not enable us to accept responsibility for the reasonableness and completeness of this information. We have not conducted an independent audit, due diligence review or validation of such information.

Therefore, we do not express any opinion on the accuracy of the same. Even if the events anticipated under the hypothetical assumptions occur, actual results are still likely to be different from the projection since other anticipated events frequently may not occur as expected and the variation may be material.

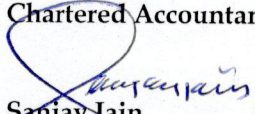

6.2 Our report does not constitute a recommendation as to whether or not to any party should carry out a transaction vis-à-vis the Company. Any investment decision relating to the Company should only be made by the relevant parties based on their own assessment of the merits or demerits of any such investment.

6.3 We shall not be liable to the Company for any loss or liabilities which may arise based upon the information used in this report. Further, the Company agrees that we shall not be liable for any consequential, incidental or punitive loss or expense even if we have been advised of their possible existence. This provision shall survive the termination of the engagement for any reason.

6.4 This report is for the sole purpose stated in Para 1 above.

Dear Sir/ Madam,

We refer to the engagement letter whereby UFO Moviez India Limited ("UFO") and Qube Cinema Technologies Private Limited ("Qube") have requested Walker Chandio & Co LLP ("WCC") for recommendation of the Share Exchange Ratio for the Proposed Merger (as defined below).

UFO and Qube are together referred to as 'the Specified Companies'.

In the following paragraphs, we have summarized our valuation analysis together with the description of the methodologies used and limitations on our scope of work.

WCC has been hereafter referred to as 'Valuer' or 'we' or 'us' in this report ('Valuation Report' or 'Report').

SCOPE AND PURPOSE OF THIS REPORT

UFO, incorporated in 2004, is a digital cinema distribution network and an in-cinema advertising platform. UFO is listed on the BSE Limited and National Stock Exchange Limited in India.

Qube, incorporated in 1986, has over 30 years of experience in film, video and audio technology. It is headquartered in Chennai and has offices across Mumbai, New Delhi, Hyderabad, Bengaluru, Cochin and Kolkata, with its 100% subsidiary Qube Cinema Inc., located in California and also has a mastering set-up in Dubai in association with a strategic partner. It provides technology solutions and services in the film, video and audio domain, including digital cinema. Its mastering facilities are located in Chennai, Mumbai, Hyderabad, Dubai (in association with a strategic partner) & California (through 100% subsidiary Qube Cinema Inc.) which have capacity to master over 40 films/ week.

Qube Digital Cinema Pvt. Ltd. ("R1"), a company incorporated under the Companies Act, 2013 having its registered office situated at Mylapore, Chennai. Upon completion of the Step I detailed in Point 5 below, R1 shall include demerged business of Qube excluding Studio DPS business.

Moviebuff Private Limited ("R3"), a company incorporated under the Companies Act, 2013 having its registered office situated at Mylapore, Chennai. R3's business relates to operation of backend platform for curating and playing back customized template messages as per viewer choices based on customer chosen schedules on chosen front-end playback devices and marketing the offering directly to end customers or through chosen channels and platforms. Shares of R3 are entirely held by the promoters of Qube and their associates.

Studio DPS business of Qube means business undertaken by Ruby pursuant to the contracts as set out in Schedule VII of the Draft Scheme and all liabilities, debts, duties, taxes and obligations in relation to the same.

PJSA Technosoft Private Limited ("U2"), incorporated in 2017, will become a wholly owned subsidiary of UFO prior to formulation of the Scheme (as defined below). Currently U2 does not have any income stream however it is proposed to be engaged in the business of development and commercial exploitation of certain software, technologies and processes.

We have been informed that the management of Qube and UFO are evaluating the following through a National Company Law Tribunal approved Composite Scheme of Arrangement and Amalgamation pursuant to the provisions of Sections 230 to 232 of the Companies Act, 2013 and other relevant provisions of the Companies Act, 2013 (the "Scheme"):

Step I: Qube intends to de-merge its business (except for Studio DPS business) into a separate company, R1 on a going concern basis. In consideration for the same, R1 would issue and allot its equity shares to all the shareholders of Qube.

Step II: Thereafter, amalgamation of R3 into R1 (with consequent dissolution of R3 without winding up) to form a combined entity, hereinafter referred to as the "Resultant Company". As a consideration for the merger of R3 into R1, the Resultant Company will issue equity shares to the shareholders of R3. Pursuant to this transaction, specific non-promoter shareholders of Qube, who no longer want to participate in the demerged business of Qube (as mentioned in Step I), will sell their holding in the Resultant Company to Unicorn and certain new investors.

Step III: Pursuant to completion of Step I & Step II, the Resultant Company shall merge with UFO (with consequent dissolution of Resultant Company without winding up) and the shareholders of Resultant Company would be issued equity shares of UFO pursuant to merger ("Proposed Merger").

Step IV: Subsequent to the completion of Step III, slump sale of IP business (as transferred to UFO pursuant to Step I to Step III above) by UFO into a wholly owned subsidiary of UFO ("U2")

We understand that the management of the Specified Companies ('Management') are contemplating amalgamation of Resultant Company into UFO ('Transaction'), as mentioned in Step III above, pursuant to the Scheme.

For the aforesaid purpose, the Specified Companies have requested WCC to submit a report recommending the Share Exchange Ratio for the proposed amalgamation of Resultant Company with UFO for the consideration of the Board of Directors of the companies. This report will be placed before the Board of UFO and Qube and to the extent mandatorily required under applicable laws of India, maybe produced before judicial, regulatory or government authorities, in connection with the Proposed Merger.

The scope of our services is to conduct a relative (and not absolute) valuation of the Specified Companies for recommending a Share Exchange ratio in accordance with generally accepted professional standards.

As a consideration for the amalgamation, equity shareholders of Resultant Company would be issued equity shares of UFO. Share Exchange Ratio for this Report refers to the number of equity shares of face value of INR 10/- each of UFO, which would be issued to shareholders of Resultant Company.

We have been provided with financial information for the Specified Companies. We have considered the same in our analysis and made adjustments for further facts made known (past or future) to us till the date of our Report. Our analysis does not factor impact of any event which is unusual or not in normal course of business. We have relied on the above while arriving at the Share Exchange Ratio.

This report is our deliverable in respect of our recommendation of Share Exchange ratio for the purpose of the Proposed Merger.

This Report is subject to the scope, assumptions, exclusions, limitations and disclaimers detailed hereinafter. As such, the Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

APPROACH & METHODOLOGY

It should be understood that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the Specified Companies. Further, this valuation will fluctuate with lapse of time, changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the Specified Companies, and other factors which generally influence the valuation of companies and their assets.

The Draft Scheme contemplates the amalgamation of Resultant Company into UFO. Arriving at the Share Exchange Ratio would require determining the value of the equity shares of UFO, in terms of the value of the equity shares of the Resultant Company. These values are to be determined independently but on a relative basis, and without considering the proposed merger.

The following are commonly used and accepted methods for determining the value of the equity shares of a company/ business:

1. Market Approach
 - a. Market Price method
 - b. Comparable Companies Quoted Multiples method
 - c. Comparable Companies Transaction Multiples method
2. Income Approach – Discounted Cash Flows method
3. Asset Approach – Net Asset Value method

Market Approach

a. Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the value of the share, especially where the market values are fluctuating in a volatile capital market. Further, in the case of an amalgamation, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

Equity shares of UFO are listed on BSE Ltd. and NSE Ltd. Equity shares of UFO are frequently traded in terms of Para 71A, Chapter VII of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009 ('ICDR Regulations'). Equity shares of Resultant Company are not listed on any stock exchanges.

b. Comparable Companies' Quoted Multiple ('CCM') Method

Under this method, value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

c. Comparable Companies' Transaction Multiple ('CTM') Method

Under this method, value of the equity shares of a company / business is arrived at by using multiples derived from valuations in the same or comparable companies, as manifest through transaction valuations. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

There have been limited transactions in the movies and entertainment segments with similar operational characteristics as that of Specified Companies. Further, transaction multiples may include acquirer-specific considerations such as synergy benefits, control premium and minority adjustments, on which sufficient information may not be available in the public domain.

Income Approach – Discounted Cash Flows ('DCF') Method

Under the DCF method the projected free cash flows to the equity shareholders are discounted at the cost of equity. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's equity capital.

Appropriate discount rate to be applied to cash flows i.e. the cost of equity:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to the equity capital providers (namely shareholders). The opportunity cost to the equity capital provider equals the rate of return the equity capital provider expects to earn on other investments of equivalent risk.

Asset Approach – Net Asset Value ('NAV') Method

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base dominate earnings capability. UFO and the Resultant Company are operating companies. A scheme of Amalgamation would normally be proceeded with, on the assumption that the companies merge as going concerns and an actual realization of the operating assets is not contemplated.

ICDR Regulations

As per SEBI circular nos. CFD/DIL3/CIR/2017/21 and CFD/DIL3/CIR/2017/26 dated 10 March 2017 and 23 March 2017, respectively, the issuance of shares under schemes in case of allotment of shares by listed companies only to a select group of shareholders or shareholders of unlisted companies pursuant to such schemes shall follow the pricing provisions of the ICDR Regulations and the relevant date for the purpose of computing pricing shall be the date of the Board meeting in which the scheme is approved.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Taking the above outlined factors, including ICDR Regulations, into consideration, we have adopted following approaches for determination of Share Exchange Ratio:

Valuation of UFO

- **Market Approach:** We have considered Market Price Method as the equity shares of UFO are frequently traded.

Trading volume of equity shares of UFO during the year ended 31 October 2017 was higher on NSE as compared to BSE. Under the Market price method, average of weekly high and low of the volume weighted average price ('VWAP') of UFO on NSE during the twenty six weeks or two weeks preceding 1 November 2017, whichever is higher has been considered. Please refer **Annexure 1** for details.

- **Income Approach:** We have not considered Discounted Cash Flow method for the valuation of UFO as the financial projections were not provided by the management of UFO.

Valuation of Resultant Company

- **Market Approach:** Equity shares of the Resultant Company are not listed on any stock exchanges. Accordingly, the market price methodology could not be used for this entity and therefore, we have considered Comparable Companies Multiple Method under this approach.

We have used the quoted multiples of comparable listed companies, as appropriate, for the purpose of our valuation analysis. Adjustments, as appropriate, are made for borrowings, surplus assets and other matters to arrive at the equity value of the Resultant Company.

- **Income Approach:** We have also used Discounted Cash Flow method under this approach for the valuation of Resultant Company.

For the purpose of DCF valuation, the free cash flow forecast is based on Financial Projections as provided by the management of Qube. While carrying out this engagement, we have relied extensively on historical information made available to us by the management of the Companies and the respective Financial Projections for future related information. We did not carry out any validation procedures or due diligence with respect to the information provided/ extracted or carry out any verification of the assets or comment on the achievability of the assumptions underlying the Financial Projections, save for satisfying ourselves to the extent possible that they are consistent with other information provided to us in the course of this engagement.

Walker Chandio & Co LLP

We have adjusted the value of Discounted Cash Flows (as explained above in "Income Approach") for adjustments, as appropriate for net borrowings, surplus assets and other matters to arrive at the equity value of the Resultant Company.

SHARE EXCHANGE RATIO

The basis of the Proposed Merger would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at under each of the above methodologies, for the purposes of recommending an exchange ratio of equity shares it is necessary to arrive at a single value for each of the business / subject companies' shares. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity values of the Specified Companies but at their relative values to facilitate the determination of an exchange ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

The Share Exchange Ratio has been arrived at on the basis of a relative equity valuation of UFO using Market Approach and Resultant Company using the Market Approach and Income Approach. The Share Exchange Ratio is based on the methodologies explained herein earlier and various qualitative factors relevant to each Company and the business dynamics and growth potential of the businesses of the Resultant Company, having regard to information, key underlying assumptions and limitations. Please refer Annexure 2 for summary valuation workings.

We have independently applied methodologies, as considered appropriate and discussed above and arrived at their assessment of value per share of the Specified Companies. To arrive at the Share Exchange Ratio, suitable averaging and rounding off in the values arrived at has been done.

In view of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend the Share Exchange Ratio as follows:

13 (Thirteen) equity shares of UFO (of INR 10/- each fully paid up) for every 17 (Seventeen) diluted equity shares of the Resultant Company (of INR 10/- each fully paid up) for the merger of the Resultant Company into UFO.

¹UFO and the Resultant Company are operating companies and this approach is used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria. Therefore, we have not adopted the Asset Approach.

²Equity shares of UFO are listed on the stock exchanges and are frequently traded. Therefore, we have considered the Market Price Method under Market Approach to value UFO whereas Equity shares of the Resultant Company are not listed on any stock exchanges, hence we have considered Comparable Companies Multiple Method under this approach for valuation of Resultant Company.

³We have considered Income Approach for valuation of the Resultant Company using the financial projections provided by the Management of Qube, however, the same was not used for UFO as the financial projections were not provided by the management of UFO.

Share Exchange Ratio

13 (Thirteen) equity shares of UFO (of INR 10/- each fully paid up) for every 17 (Seventeen) diluted equity shares of the Resultant Company (of INR 10/- each fully paid up)
